ALHAMBRA

8ft Capsule Edition Pool Table

Description

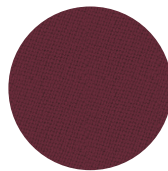

Alhambra is one of a kind pool table. It is an exclusive creation more similar to a work of art than to a simple table. The Alhambra pool table is made of thin golden metal sticks that create a dynamic arabesque pattern. The table, despite the eccentric design, remains a professional pool table without losing its functionality. The slate playing surface is covered with Simonis professional cloth and the pockets are covered in leather.
